

# Hybris test engineering redefined for a Leading Retail Chain in Australia

## About the Company

Our client is one of the largest fabric, craft and home decorator company in Australasia, with stores in every State and Territory as well as operations in New Zealand, and through Asia.

## Business Need

Set up a dedicated SAP Commerce (Hybris) platform testing function to define and implement testing of the phased enhancements to the commerce website and expanding geographical base.

## Solution

- Set up a Hybris Test Function with a dedicated team of testers with niche proficiency in Hybris
- Defined, implemented, customized and maintained Hybris Test Platform for test engineering & management
- Automated the testing of reusable business critical scenarios
- Testing of SAP Commerce (Hybris) version upgrade
- Testing of user specific promotions and recommendations
- Multi-device / multi-browser testing
- Performance testing to ensure that the platform can scale to expected peak traffic
- Security testing
- Defined and implemented process and test methodology aligned with rollout cycle and market timelines.

A close-up photograph of a person's hand gripping a bright green plastic handle of a metal shopping cart. The cart's frame is made of silver metal bars. The background is blurred, showing a person's arm in a grey sleeve and a blue patterned garment. The overall scene suggests a retail or grocery store environment.

## Business Benefits

**75%**

cost reduction with a core Hybris skilled team and test automation model

**70%**

reduction in regression effort with test automation
